COVER NOTE

Please complete all sections

<p>Child's Initials: [REDACTED] D.O.B: [REDACTED].86</p> <p>BRI number: [REDACTED]</p> <p>BRHSC number: [REDACTED]</p>	<p>Diagnosis:</p> <p>Pulmonary Atresia & VSD</p>	<p>Overall Outcome:</p> <p>Alive</p>
--	---	---

Additional Comments:

Shunt operation [REDACTED] 11.86. No problems.

Overall grade for adequacy of care: 4

Date of Review: 31.8.99

Team No: [REDACTED]

Number of notes attached:

(a) pre operative care - 1

(b) surgical and post operative care - 1

Signed Team Co-ordinator

Please use the following summary scores for adequacy:

Overall adequacy of care and relevance to outcome:

4 = Adequate

3 = Less than adequate care but different management would have made no difference to outcome.

2 = Less than adequate care - different management MIGHT have made a difference to outcome (i.e. avoidable factor of uncertain influence on outcome).

1 = Less than adequate care in which different management would reasonably be expected to have made a difference to outcome (i.e. an avoidable factor which probably contributed to death or disability)

X = Insufficient information for comment.
