Mr J D Wisheart
Consultant Cardiac Surgeon
Department of Cardiac Surgery
Bristol Royal Infirmary
Bristol

Dear Mr Wisheart

Re: Samantha RICKARD, DOB 14.02.91 Reg No. BRI 880319

I performed a postmortem on this child who died following operative correction of complete atrio-ventricular septal defect. All the anastomosis appear intact but in your
* postmortem request sheet you enquired specifically about the left ventricular outflow tract. We found this to be extremely narrowed only admitting a probe approximately 3mm diameter but found it difficult to assess the original anatomy because of the repair. We have retained the heart
+ and would welcome the opportunity to discuss it further with you.

Yours sincerely

K Denton
