

**Response of JD Wisheart to the Comments of
Dr Geoffery W Burton, dated March 16th 2000**

Reference No. WIT 0555 0001-0007

An Audit of Cardiac Surgical Services

Page 1, Para. A

"We anaesthetists never saw any of the results and none were published in the journals".

Comment

The results referred to are the reports of the UKCSR. It may well be correct that these reports were not shown to our anaesthetic colleagues during the years Dr Burton was working with the Team. However, they did see the findings, as they were included for comparative purposes in the annual statistical summaries of our own work, which they did see.
