BCH

Dear Steve

AUDIT OF PAEDIATRIC CARDIOLOGY

I think it is very important that we recommence our audit sessions in 1992 and after discussion I think we ought to hold these monthly on the fourth Wednesday of each month, replacing the usual catheter meeting. So that the burden does not fall on any one person we ought to take this in rotation between the five of us and if necessary individuals may swop around their sessions if they are not convenient. It may also be appropriate to get the junior staff involved in these presentations and review of results.

I enclose a rota for the audit sessions. I will do the first one in January on transcatheter PDA occlusion and a brief run-through of the interventional work of the previous year.

Yours sincerely

R P MARTIN
