

on board but I know you have been very supportive to Gianni and obviously if there were some contingency funding left then we would go ahead and try and make this appointment as soon as possible. As Gianni has probably told you there is certainly one possible candidate in Australia who might well fit the bill and no doubt if we advertise internationally we might find some others who would want, for instance, perhaps to move from places like South Africa to Britain. At any rate, could you let me know fairly soon what your views are on this matter and Gianni and I can get a move on.

Yours sincerely,

Professor J Vann Jones
Consultant Cardiologist

Professor G. Angelini
Consultant Cardiac Surgeon
