1. Ward Management

Nurse in charge of the nursery

The nurse in charge of the nursery is now indicated on the nursery door. It was thought that this has been helpful.

Nurse call bells in the nursery.

It was reported that the two nurse call bells were not yet working. Fiona said that there was a delay and that she would look in to it. It was agreed that older children should be allocated to the bed spaces where the call bells are functioning.

2. Paediatric Care

Paediatric analgesia

It was reported that there have been some difficulties in the timing of sedation for children before procedures. Possible ways of avoiding this were discussed.
