Dear Jean

RE HEART CIRCLE EQUIPMENT - BRI

Thank you for meeting me on 1 December 1995 to discuss the value of the equipment that did not transfer to the Bristol Childrens Hospital. The pictures in the corridor which were not on my original list have now been included and full details are shown on the attached list. The total value is £4425.

As requested I will ask Mr Harral from the Special Trustees if he will arrange for the invoice for the Nitric Oxide Machine for BCH ITU to be paid in lieu of the items remaining at the BRI (we will then have to make an arrangement to transfer any further outstanding amount).

Finally, I was delighted that you liked the idea of holding a reception and presentation at the BRI in the New Year for you and your Heart Circle colleagues.

Professor Vann Jones and I are keen to acknowledge the huge commitment made by you and the Heart Circle to paediatric surgery at the BRI over the last 23 years. We know that the equipment that you have purchased totals many many thousands of pounds, and that the purchase of equipment has been just one aspect of the support you have given. It would be helpful if you would let me have a list of some of the things that you have done so that they can be included in our presentation.

Please also let me have addresses for the Heart Circle members that you would like me to invite, and perhaps a few dates that would be convenient for you.

*Teresa
can you get a
date from
our staff for the
Heart Circle presentation
Thanks.
Ref.*
