

5. That it has received a progress report on the expansion of Cardiac Services [copy attached herewith] which it RECOMMENDS that the DHA publicises widely through all available channels, as indicative of excellent progress made in promoting a DHSS and RHA priority project of considerable public interest. PPRC asks the DHA to note the importance of the expansion of Cardiac Service in relation to the future development of both the BRI and BCH.
6. That it hopes to hold 'hearings' in early July, similar to those held as part of the Review of Acute Services, before final draft strategies are issued for formal consultation in respect of laboratory services, medical physics and radiodiagnostic services. PPRC also proposes to undertake a similar review of pharmacy services.
